Swiss Education Consulting

Helping families navigate the swiss education system

Educational Support for your Employees.

"The feedback from participants: 5 out of 5! Thank you so much for your talk at our Google headquarters!"

Janina, Spouses of Googlers/Spooglers, Zürich

Education integration is an issue that global companies cannot ignore!

Moving employees to a location abroad has significant implications for the whole family. From our experience working with parents from Google, MSD, Johnson & Johnson, Roche and many other global companies, we have created the following core services which can be tailored to suit your business needs and culture.

Our compensated employee program

Our tailored program can include in-company presentations, webinars and 1:1 support.

Our in-company presentations

Our in-company presentations, run by our school expert, include a range of educational topics, from understanding the Swiss school system, to local school culture and effective communication with school authorities.

Employees benefit from

- Support and guidance
  on available state and private school options prior to relocation.
- Recommendations
  for school options that best meet the needs of the family.
- Communication & help
  to liaise with the selected school/s or local school authorities regarding the registration and application process.

1-1 Support packages for employees:

We have two support packages depending on your employees needs

For incoming employees

This package adds real value for relocating families as gathering information from the relevant schools and education authorities can be an extremely time-consuming process.

Ongoing employee support

Support for onboarding staff usually ends, once the assignee and the family are settled. However, often questions or issues with school emerge at a later stage.
Employees benefit from ongoing advice and guidance to address ad-hoc education problems and to take the next steps.

Corporate referral

As an alternative, you can simply include information about us in your relocation packet. In this case, your employee contacts us directly to engage our services.
